COURSE DESCRIPTION Foundations of Spinal Cord Injury Management is designed to provide rehabilitation practitioners with the fundamental tools to manage spinal cord injured patients. This course will give practitioners with limited or no spinal cord injury experience the basic tools to create a solid foundation for rehabilitation.

TARGET POPULATION This event targets all physical, occupational, speech, and recreational therapists involved in the delivery of care. In addition, other health care professionals such as physicians and mid-level providers who are involved in rehabilitation will also benefit from this event.

CONTINUING EDUCATION Six contact hours: Applications for continuing education hours have been submitted to the Maryland Board of Physical Therapy Examiners and the Maryland Board of Occupational Therapy.

This activity has been submitted to Shore Regional Health for approval to award contact hours.

This course is available for .6 hours of continuing education from the American Speech and Hearing Association (ASHA).

SCHEDULE

7:30 – 8:00 am	Registration
8:00 – 9:00 am	Spinal Cord Injury Overview: Mechanisms of Injury, Diagnosis, and Medical Management
9:00 – 10:00 am	Therapy Management of SCI in the Acute Care Setting
10:00 – 10:15 am	Break
10:15 – 11:00 am	Secondary Complications of SCI
11:00 – 11:45 am	SLP Considerations for SCI
11:45 am – 12:45 pm	Lunch
12:45 – 1:45 pm	Expected Functional Outcomes
1:45 – 2:00 pm	Break
2:00 – 3:00 pm	Basics of Seating and Positioning
3:00 – 3:30 pm	Updates in Technology and Research

- COURSE OBJECTIVES**
1. Participants will gain a basic understanding of concepts for spinal cord injury rehabilitation.
 2. Participants will understand functional implications and secondary complications for a person with spinal cord injury.
 3. Participants will verbalize therapeutic interventions from acute care to rehabilitation.
 4. Participants will understand a basic level of seating and positioning to optimize function along the continuum of care.
